Primary Examiner, Art Unit 1731

The following is an **examiner's statement of reasons for allowance**:

The appeal conference was had with Paul Marcantoni (AU 1731 examiner) and TC 1700 managers Chris Fiorilla and Jerry Lorengo. The decision was made to deny or disapprove write up of an examiner's answer for submission to the Board of Patent Appeals and Interferences (BPAI). The managers indicated in the appeal conference that Figures 2, 3, and 4 for applicants' instant application did show unexpected results over the prior art Duselis '248 (and '146) because it showed a *spike* between the amounts of greater than zero to 20 wt% bleached fibers. It was also noted in the appeal conference that Duselis '248 (and '146) did not teach the specific range of amounts as claimed by applicants for their claimed range of *bleached* cellulose fibers in amount of about 10-17 wt%. It was pointed out that by the examiner that Duselis '248, for example, did teach a mixture of bleached and unbleached cellulose fibers but did not provide the specific amount of *bleached* fibers as claimed by applicants for their instant invention. Appeal thus denied and application has been allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul Marcantoni whose telephone number is 571-272-1373.
